Village Council Bulletin

Pending Legislation

None

FREE FIREWOOD

The Village had trees cut down throughout town and left the wood for anyone to take.

If you want some firewood, please take as much as you need.

GRANTS

Streets

The Village of Lockbourne is applying for a grant through the Ohio Public Works Commission to repave the village portion of Rowe Road and Williams Street, and place crosswalks and line stripping on Commerce Street. We also hope to include Commerce Street South and Miller. The project is expected to cost \$500k. The deadline to submit the grant is August 29, 2025.

America 250

The Village is currently working with Rediscover Lockbourne and America 250 for funding on an informational sign on Lockbourne's history and lock number 30 in the park.

Trash and Recyclable Containers

The Village received the trash and recycle containers for the three parks, Historical Hall, and Commerce Street. The Village was awarded a grant in 2024 from SWACO in the amount of \$13,836.86 to help cover the cost.

We are going to kick-off the fundraiser for the Memorial Wall at the groundbreaking.

To make a donation to the Memorial Wall, click on the link or scan the QR Code

LOCKBOURNE'S CODE ENFORCEMENT

Minor Home Repair Program

The Franklin County Office on Aging administers the Minor Home Repair Program through [Senior Options](#) which provides services that contribute to a safe, secure living environment for Franklin County older adult homeowners who meet program eligibility guidelines.

The Minor Home Repair Program offers a variety of minor repair services to senior residents, including:

- Minor plumbing, electrical, gas and furnace repairs
- Air conditioner repairs and replacements (No window units)
- Installation of safety devices including smoke alarms, carbon monoxide detectors, deadbolt locks, etc.
- Installation of handrails and/or grab bars
- Installation of wheelchair/walker ramps
- Concrete repair to main walkways
- Repair and replacement of broken glass

All of the work done through the Minor Home Repair Program is done by qualified, licensed, bonded and insured contractors. The materials and techniques used in the repair work also

Program Eligibility

Residents are eligible for these services if they meet the following eligibility requirements:

- **Reside in Franklin County (Ohio)**
- **Aged 60 years or older**
- **Income eligible**
 - *Cannot have an income exceeding \$2,000/month for a single person and \$4,000/month for 2+ person household*
 - *Cannot have over \$10,000 in liquid assets*
 - *Cannot own more than one home*
- **Be a homeowner or renter**
 - *Renters are only eligible for wheelchair ramp and/or grab bars installation and must be wheelchair bound. Installation is also contingent on landlord's approval*

How to Enroll

Residents can enroll in the Minor Home Repair Program by calling (614) 525-6200 weekdays 9AM-4:30PM ET. Residents will need to complete an over-the-phone confidential assessment to identify service need, eligibility and to coordinate services.

LOCKBOURNE ANNUAL CHRISTMAS HOP

Lockbourne Historical Hall • 206 Vause Street, Lockbourne
Sunday, December 7, 2025

Please join us. . .

We want to invite you to Lockbourne's Annual Christmas Hop.

REDISCOVER LOCKBOURNE IS LOOKING FOR SPONSORS FOR THE CHRISTMAS HOP!

Refer to the below listing of Sponsor Packages for detailed information about each level of sponsorship. Please contact Karen Carter @ deputy.admin@lockbourneohio.us or (614) 491-3161 x2 for more information and for assistance with processing your Sponsorship.

Horse & Carriage Sponsor - \$1,500

(3 Sponsors @ \$500)

- Recognition as sponsor in all media outlets: Facebook, Village Newsletter, Village Website
- Logo prominently displayed on signage at Christmas Hop
- Recognition as sponsor in press release submitted to South Messenger
- Recognition as sponsor on signage at the Horse & Carriage Station
- Exclusive area to display your promotional materials during the Christmas Hop
- Sponsorship of the full \$1,500 will receive six (6) tickets for a horse and carriage ride.
- Sponsorships of \$500 will receive two (2) tickets for a horse and carriage ride.

Kid's Train Ride Sponsor - \$200

- Recognition as sponsor in all media outlets: Facebook, Village Newsletter, Village Website
- Logo prominently displayed on signage at Christmas Hop
- Recognition as sponsor on signage at the Kid's Corner Station
- Exclusive area to display your promotional materials during the Christmas Hop
- Two (2) tickets for horse and carriage ride

Hot Chocolate Bar Sponsor - \$200

- Recognition as sponsor in all media outlets: Facebook, Village Newsletter, Village Website
- Logo prominently displayed on signage at Christmas Hop
- Recognition as sponsor on signage at the Hot Chocolate Bar
- Exclusive area to display your promotional materials during the Christmas Hop
- Two (2) tickets for horse and carriage ride

Jingle Bell Sponsor - \$100

- Recognition as sponsor in all media outlets: Facebook, Village Newsletter, Village Website
- Logo prominently displayed on signage at Christmas Hop

LAKE ERIE TO OHIO RIVER TRAIL

This is a great opportunity to see how Ohio's waterways moved boats through our nation!!!

Lake Erie to Ohio River Trail
The Waters that Moved a Nation

OHIO TRAILS & TALES
LAKE ERIE TO OHIO RIVER
AMERICA 250-OHIO PROGRAM

“The Great Lakes are a diamond on the hand of America.”
– Pat Dailey, Singer/Songwriter from the “Great Lakes Song”

Ohio's waterways didn't just move boats—they moved a nation.
Lake Erie, the Ohio River, and the canals that connected them fueled industry, carried dreams, sparked innovation, and sustained life.

From sternwheelers to freighters, from lighthouse beacons to canal locks—these waters shaped America's story. **The Lake Erie to Ohio River Trail** invites you to drive your own adventure, exploring the people, places, and innovations that transformed Ohio into a national powerhouse.

- **Lake Erie opened the Midwest to the world.**
- **The Ohio River carried dreams westward.**
- **Canals turned wilderness into commerce.**

And today, these waterways still support our lives—through clean drinking water, outdoor recreation, fisheries, shipping, research, and thriving waterfront communities.

Explore more than 150 sites along the trail:
[America250-ohio.org/lake-erie-to-ohio-river](https://america250-ohio.org/lake-erie-to-ohio-river)

Trails & Tales are presented in partnership with America 250-Ohio and the Ohio Travel Association.

OHIO TRAILS & TALES
LAKE ERIE TO OHIO RIVER
AMERICA 250-OHIO PROGRAM

Discover the Backbone of America—One Ripple at a Time

Ohio's waterways built more than ports—they built possibilities. Lake Erie, the Ohio River, and the historic canals powered commerce, transported people and goods, and helped shape our communities. Today, they're still flowing with beauty, history, and purpose.

Trail Highlights
Explore themed sites across Ohio:

- Lake Erie Lighthouses** – Tour historic beacons that guided ships and now preserve maritime heritage.
- Boat Rides & Ferryboats** – Cruise Lake Erie, canals, and the Ohio River—step into history on the water.
- Lake Erie Museums & Historic Sites** – Dive into stories of commerce, war, and innovation.
- Ohio Canal Museums & Historic Sites** – Walk towpath trails, view hand-dug canal paths, and marvel at locks that helped shape the state.
- Ohio River Museums & Historic Sites** – Uncover stories of frontier life, freedom seekers, and industrial growth.
- Natural Areas & Overlooks** – Visit wetlands, parks, and preserved landscapes shaped by water.
- Aquatic Science & Research Sites** – Explore aquariums, science centers, and labs working to protect our water future.

Backyard Flooding & Drainage Problems

How to Mitigate Common Drainage Issues

Considering "water" is in our name at Franklin Soil and Water Conservation District, we get lots of calls from residents and organizations about flooding and drainage problems around Franklin County. It's very common in the spring especially, and following a heavy rain event, we expect lots of calls the next day. Although it's been relatively dry *lately*, let's talk about why these drainage issues are occurring and how we can work to mitigate them.

Why Does it Flood After Heavy Rain?

Central Ohio was once a big farming community with a lot of clay and hydric soils. Clay soil holds water particularly well, sometimes too well, and is slow to drain. Following a heavy rain event, the soil has a maximum amount it can hold. After it reaches the max, the water pools on top of the soil, which causes flooding.

With increased development comes increased amount of impervious surfaces (roads, parking lots, concrete, roofs). Impervious surfaces cannot soak up stormwater. The water just runs right off of it. So, with an increased amount of impervious surfaces from development, we're seeing more flooding. Plus, the amount of precipitation has increased in recent years - check out the graphic below.

Flooding can be a nuisance and even dangerous when it is severe, but in the moment, time is needed to let the water soak into the ground, sometimes even days. However, there are some things we can do to reduce and prevent future flooding.

How to Reduce Flooding: Soak It In!

There is no easy, immediate fix unfortunately. However, there are several ways we can try to reduce flooding. All of these work in some way or another to capture and soak stormwater back into the ground.

- Install a rain garden. While rain gardens won't solve the problem of poorly draining soil, they CAN help to soak up water faster and better than regular old turfgrass or flower beds.
- Replace unused pavement or turfgrass with native plants or a rain garden. Native plants have strong, deep roots that are great at capturing and soaking in stormwater - better than non-native plants or turfgrass. Plus, it will save you some time, effort, and money on mowing, and it adds a nice landscaping feature.
- Install vegetative buffers along streams. Don't mow all the way to the edge of a stream. A vegetative buffer is fantastic at capturing and soaking in water. Plus, buffers help hold the soil in place, thereby preventing erosion. Bonus - use native plants and trees to provide habitat and food for native wildlife and pollinators.
- Utilize a rain barrel. Capture some of the rainwater coming off your roof and use it to water your lawn or gardens.

OPEN HOUSE

September 21, 2025

Station 172
(6410 Lockbourne Road)

12:00 p.m. – 4:00 p.m.

Franklin County Engineers Office is excited to share that Franklin County has received a \$25 million BUILD grant from the U.S. Department of Transportation to improve Alum Creek Drive, a vital freight and commuter corridor in Central Ohio.

The project will:

- Widen 2.6 miles between SR 317 and Groveport Rd
- Add a third lane in each direction
- Improve access to Rickenbacker International Airport
- Enhance safety, reduce congestion, and support future growth

Franklin County Engineers Office would like to thank Senator Jon Huston and Bernie Moreno for their support, and our local partners for helping bring this investment home. This is a major win for our infrastructure, economy, and community.

For more details, view the full press release on our website:

LOCKBOURNE SCHOOL

MAY 1934

1ST AND 2ND GRADERS

1st & 2nd Graders Lockbourne School May 1934

This article will tell you the history about navigation through Lockbourne.

Navigating Lockbourne's history

- The village of Lockbourne was laid out in 1831, when the Ohio and Erie Canal was constructed, and formally incorporated in 1901.
- The canal was 309 miles long from Cleveland on Lake Erie to Portsmouth on the Ohio River, which provided a shipping link to the Mississippi River.
- Ground was broken July 4, 1825, at Licking Summit near Newark. The Ohio and Erie Canal was completed in 1831, and the Miami and Erie Canal from Cincinnati to Toledo was finished in 1845. The last remnants of the canal system were destroyed by the 1913 flood.
- A toll was paid by boats using the canal, and passengers paid a penny a mile to ride. A record \$799,024 in tolls was collected in 1851 but then declined because of railroad competition.
- Morgan horses pulled wood boats that were 90 feet long and 15 feet wide and carried up to 80 tons of cargo.
- The 30-mile central Ohio portion of the canal began at a reservoir now known as Buckeye Lake. The waterway helped boats navigate a 202-foot descent with 30 locks.
- Community names featured canal terminology including Lockville, Canal Winchester, Groveport and Lockbourne.
- What is now Big Walnut Creek was called the Gahanna River by a law enacted in 1838, reportedly from an Indian name meaning "three united into one".
- Remnants of the canal and towpath may be seen along Canal Road and Rowe Road, which links Lockbourne to heavily traveled Rt. 23.
- While a considerable amount of grain was produced by area farmers, no storage building was needed. All of it was used by a local distillery to produce whiskey.
